PRACHT RELEASES EX-PROOF LUMINAIRES

ATEX & IECEX CERTIFIED – MADE IN GERMANY

High tension, watchful eyes, lightning-fast reactions - geckos know danger and are ready for any challenge.They were the inspiration for the name of the new PRACHT GECKO L, an ex-proof diffuser luminaire. Made in Germany.
The ex-proof linear lighting solutions are designed for use in hazardous areas where other luminaires cannot guarantee safe use.
The Gecko has been specially developed for hazardous areas for zones 1-21 & 2-22 - an impact resistant splinter protection, optimised thermal management and special electronics prevent flammable gases or dust from igniting.
With the ex-proof full LEDs, PRACHT also offers a future-proof and efficient alternative in brand quality with regard to the ban on fluorescent lamps in 2023.
and efficient alternative in brand quality.

PRODUCT COMPARISON

Simply compare up to 3 luminaires with their technical features. And the best thing about it - add the overview to the PINBOARD, your individual lighting folder.

PINBOARD

All important information individually compiled in the light folder. Data sheets, product brochures, news and other content, such as the product comparison, can be compiled on a project-specific basis, downloaded and even sent as a link.
